Centralized Communication Portal

As our client, we are pleased to provide your company with a complete, easy-to-use, Web-based system that simplifies all of your benefits, reporting, and communications activities. With **GBM-HR**, you'll have a personalized Web portal where benefits information and costs, educational materials, company newsletters, and other communications can be easily accessed by your employees.

Your own company Web portal, your own way! The GBM-HR system manages communications, benefits, contacts, tasks, and much more.

Streamlined Benefits Administration

GBM-HR decreases administration costs by reducing paperwork and efficiently managing your daily tasks. Intelligent, self-populating forms eliminate the need for data-entry redundancies. Employee self service automates open enrollment activities. Detailed reporting tools simplify cost comparisons and benefits analyses.

Your Success ... is Our Goal

With software tools that make short work of benefits administration.

No more *piles* of paper.
Everything you need in one single, complete application.
